# WHITEWOOD

FROM EUROPE

## TAKTOR D.O.O

Taktor d.o.o. was established in 2011 and mainly deals with timber exports of sawn whitewood to our valued customers in Middle East, North Africa and Far East Asia.

Because of enthusiastic and dedicated management team, Taktor d.o.o. expanded the business very quickly. With combined experiences for last 8 years in inspection, warehousing, logistics, and documentation we have developed good relationships with reliable saw-mills in our region, enabling us to provide our customers with specific products and service requirements.

TAKTOR D.O.O

TAKTOR

## EXPORT VOLUME AND TARGET

Presently exporting volumes of over 85,000 cbm per year and targeting to reach exports of over 100,000 cbm by end of 2018.

## TAKTOR D.O.O

### WAREHOUSING

Taktor have dedicated covered storage area in the Port of Koper in Slovenia for anti-stain treatment, inspection, markings in addition to open and covered warehousing outside the port with capacity to receive and store about 25,000 cbm of sawn timber.

### LOGISTICS

This is the main function of our business. With many years of experience and personal contacts with main shipping lines, haulers and warehousing, Taktor is able to get good competitive rates that savings can be passed on to our clients and give better price to our customers.

### QUALITY CONTROL AND INSPECTION

Taktor team inspect all the timber received at its warehouse for quality and sizes. In our product range you can find fresh cut, with anti-stain treatment and kiln dried spruce and fir. Free from heart rot and broken pieces, Lev 0 - III quality, Square edged and packed in bundles with PET or steel straps on every linear meter length. Our product range includes regular standard sizes that are requested in North Africa and Far East Asia. On our clients request we can also offer special sizes that is demanded mainly with clients from Middle East.
